PCN-Number / Rev / Date	44075 / 1 / 09.12.2020
Category / change type	SWFW software / SOFTW Change of software / MAJOR
Summary	End of Maintenance (EOM) for software release Dingo-Reloaded New software release Firefly available
Motivation, trigger	New software release for TCG-4
Details of change	Das Softwarerelease Dingo Reloaded (Deployment Package v2_02r0) wird ab dem Erscheinen des Softwareleases Gecko (Deployment Package tba) nicht weiter gewartet (EOM). Das Veröffentlichungsdatum des Gecko Releases ist für Q2 / 2021 geplant. Dies bedeutet auch, dass auf den Standard TCG-4 Geräten ab Verfügbarkeit des Gecko Softwareleases, dieses anstatt der Dingo Reloaded Software aufgespielt wird.

Sollten Sie weiterhin die Dingo Reloaded Software bekommen wollen, ist dies über die Erstellung Ihrer spezifischen TCG-4 Variante möglich. Bitte beachten Sie dabei aber, dass wie oben erwähnt, die Software nicht weiter gewartet wird.

Wir empfehlen Ihnen, den seit Montag, 30.11.2020, verfügbaren Firefly auszuprobieren und dorthin Ihre Anwendung zu transferieren. Das Firefly Release (Deployment Package v3_00r0), dessen Zulassung gerade noch läuft, steht auf dem STW Download Server zur Verfügung und bietet etliche neue Funktionen. Die Details zu den Neuerungen finden Sie in den zugehörigen Releasenotes. Bitte beachten Sie auch, dass es keine Rückwärtskompatibilität zwischen der Software Firefly (Deployment Package v3_00r0) und Dingo Reloaded (Deployment Package v2_02r0) bzw. älteren Ständen wie Dingo (Deployment Package v2_01r0) oder Crocodile (Deployment Package v2_00r0) gibt. Zwischen Firefly und dem nachfolgenden Softwarerelease Gecko besteht wieder eine Rückwärtskompatibilität.

The software release Dingo Reloaded (Deployment Package v2_02r0) will no longer be maintained (EOM) after the release of the software release Gecko (Deployment Package tba). The release date of the Gecko release is planned for Q2 / 2021.

This also means that the Gecko software release will be installed on standard TCG-4 devices instead of the Dingo Reloaded software as soon as it is available.

If you would like to continue to receive the Dingo Reloaded software, this can be done by creating your specific TCG-4 version. Please note, however, that as mentioned above, the software will not be maintained further.

We recommend that you try the Firefly, available since Monday, 30.11.2020, and transfer your application to it. The Firefly release (Deployment Package v3_00r0), whose approval is in progress, is available on the STW download server and offers several new functions. Details of the new features can be found in the corresponding release notes. Please also note that there is no backwards compatibility between the software Firefly (Deployment Package v3_00r0) and Dingo Reloaded (Deployment Package v2_02r0) or older versions like Dingo (Deployment Package v2_01r0)
