

## Software Update Notification

SUN Number:	SUN-2021-0005
Date:	2021/10/11
Affected Software:	<input type="checkbox"/> OS OPUS A3 / OPUS A6 G1 <input type="checkbox"/> OS EGSpro – OPUS A6 G2 / OPUS A8 <input type="checkbox"/> OS EGScore – OPUS B3 / OPUS B4 <input checked="" type="checkbox"/> OPUS Projektor / PClient <input type="checkbox"/> CODESYS <input type="checkbox"/> ISO UT <input type="checkbox"/> Other

The update(s) contain(s) the following main changes:

### **OPUS Projektor / PClient – Version 2021.4.3**

- Infos
  - o Support for B4 Eco Full pre series
  - o Executable files are now digitally signed
- Features / Improvements
  - o Issue reporting improved to get better exception information
- Bug fixes
  - o Rename functionality when using versioning fixed
  - o Issues with folder deletion fixed
  - o @terminal variable correctly initialized for EGScore devices

The full list of changes can be read in the attached release notes document(s).

Note that this version of the OPUS Projektor is still delivered with EGSpro 2.3.4.  
The next update will include support for EGSpro 2.4.0.

**We recommend using this updated software version for new projects and if bugs were fixed that are problematic for your project(s).**
